

ENVIRONMENTAL POLICY

As **ATU Tourism Management Inc.** and **ATU Antalya Store Management Inc.**, we consider environmental protection as one of our fundamental corporate responsibilities within the scope of our duty-free retail operations. In order to control the environmental impacts of our operations, utilize natural resources efficiently, and contribute to sustainable development, we adopt the following principles:

Our Commitments;

- To comply with relevant environmental legislation, legal requirements, and other obligations to which we are subject;
- To continuously improve our environmental performance and enhance the effectiveness of our environmental management system;
- To promote the efficient use of energy, water, and other natural resources;
- To reduce waste generation at the source and support recycling and reuse practices;
- To reduce environmental impacts by optimizing the use of packaging materials;
- To conduct initiatives aimed at reducing greenhouse gas emissions and the carbon footprint resulting from our operations;
- To foster an environmentally responsible procurement and business approach with our suppliers and business partners;
- To carry out training and awareness activities to increase the environmental consciousness of our employees;
- To take necessary measures to prevent pollution and mitigate environmental risks;
- To support sustainable practices by evaluating climate change-related risks and opportunities;
- To contribute to environmental protection in collaboration with airport operators, customers, and other relevant stakeholders.

This policy is adopted by all our employees and business partners, providing a framework for establishing our environmental targets.
